SPECIAL EVENT PLANNING GUIDE AND PERMIT APPLICATION

This Special Event Planning Guide is designed to assist event organizers and serve as a guideline for developing event plans that comply with local, state, and federal codes, laws, policies and regulations governing activities associated with the productions and management of special events.

Event organizers have the responsibility to assess the venue, environment, anticipated attendees and event components of the proposed event in order to develop and implement management strategies that ensure the safety of the participants, citizens, and the surrounding environment affected by the event.

Special event permit applicants and/or their representatives agree to have sole responsibility, knowledge, understanding and the ability to meet or exceed all city, county, state and federal codes, laws, policies and regulations associated with the proposed event. Applicants and their representatives also agree to accept the venue in an as-is condition, inspect all areas within the event venue and immediate surrounding areas for hazards and take any reasonably necessary actions to protect event participants and attendees.

SPECIAL EVENT PERMIT PROCESS

The Special Event Permit Process is managed by the Recreation and Park District. The special event permit process provides a coordinated approach to the planning, review, and on-site management of events.

The permit process begins with submittal of the permit application to the District. All attachments and supporting documentation should be submitted with the original application. Acceptance of the permit application or the initiation of the review process does not deem the permit application to be completed, nor should submission of a permit application be construed as final approval of the application.

Throughout the permit review process, additional information or documents may be requested by the District for clarification. Delays in providing the additional required information may affect the ability to complete the permit application review in a timely manner.

The Rio Linda Elverta Recreation and Park District staff will do its best to keep applicants apprised of any issues regarding the permit application throughout the review process. For Major and Moderate events, a Districtwide pre-event planning meeting and post-event evaluation may be required. The purpose of these meetings is to discuss the special needs or issues unique to the event or community. These meetings provide event organizers with valuable feedback regarding events.

SPECIAL EVENT RELATED PERMITS

There are varieties of different permits that may be issued independent of a Special Event Permit or may be required in conjunction with a Special Event Permit. The proposed event venue, activities, components, attendance, and unique circumstances of the event are contributing

factors to the final determination of the required permit types. The following is a summary of the most common permit types that may be required when planning a special event or an activity associated with a special event.

Alcohol Use Permit

If the sale of alcohol is included in a special event, authorization from the State of California Department of Alcohol Beverage Control (ABC) is required and a copy of the ABC License must be provided to the District prior to the issuance of a permit. District may place restrictions on the way in which alcohol is managed at a proposed event. Different permits, policies and procedures depend on the classification and the number of days of the event. As part of the food handling requirements, applicants or event organizers are required to include public safety features in the event plans such as hand-washing sinks. The County of Sacramento Department of Environmental Health issues food permits. It is the responsibility of the applicant to ensure all vendors have current permits.

As part of the permit requirements, onsite stand-by and inspection services may be required due to the size, complexity and/or unique safety issues regarding the activities associated with the proposed event.

For events that require street closures, the assembly of 50 or more people, cooking, open burning, electricity or temporary membrane structures (tents or canopies), a separate plan or permit may be required from the fire department. Inspection fees may apply.
